

The preface of "Welcome Now in Peace" reads: As the story of each culture unfolds through arts and song, understanding and communication between societies are enhanced. The thoughts, yearnings, and the roots of the people of the earth are chronicled in its myths and folksongs. As we enjoy the words and melodies coming from each of these groups, our appreciation for the diversity and uniqueness found within our own American culture will grow." In that spirit, this program was chosen to be part of a year-long celebration acknowledging the fiftieth anniversary of the United Nations.
